

DELIVERY

Time is money, when the money is on time!

We respect that and treat seriously our customer, so we provide same day worldwide shipping service. We deal only with most popular companies such as **DHL, UPS, FedEx, TNT, DPD, HERMES, EMS**, so the customer can choose the right option, and order his courier to our door. Shipping stakes in eBay listings come from Poczta Polska & UPS tariff.

Delivery in the EU area usually takes from 48 up to 72 hours, but it depends on many terms, so you can always trace your parcel after dispatch.

We also offer Express 24 EU service for additional charge, so please contact us for details. Pre-coding service of the purchased component could extend dispatch time, but the customer is always advised about this fact, by our customer service.
